Fencing Panels

Doogood Australia is one of the largest suppliers of quality steel and aluminium fencing panels in Australia to residential, commercial and civil fencing contractors. Our everyday range is ready to go when you are, or we can customise a solution to your unique needs.

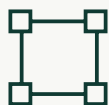

Doogood fencing is designed and manufactured to meet all Australian standards. We know our customers often work to tight project timelines. That's why we keep a large supply of prefabricated fencing stock, in a huge range of styles, on hand in our warehouse, ready to deliver anywhere in Australia.

Doogood offer custom steel fence, gate design and fabrication services. With state-of-the-art manufacturing sites we can accommodate complex custom residential, commercial and civil steel fencing projects in-house.

WARRANTY

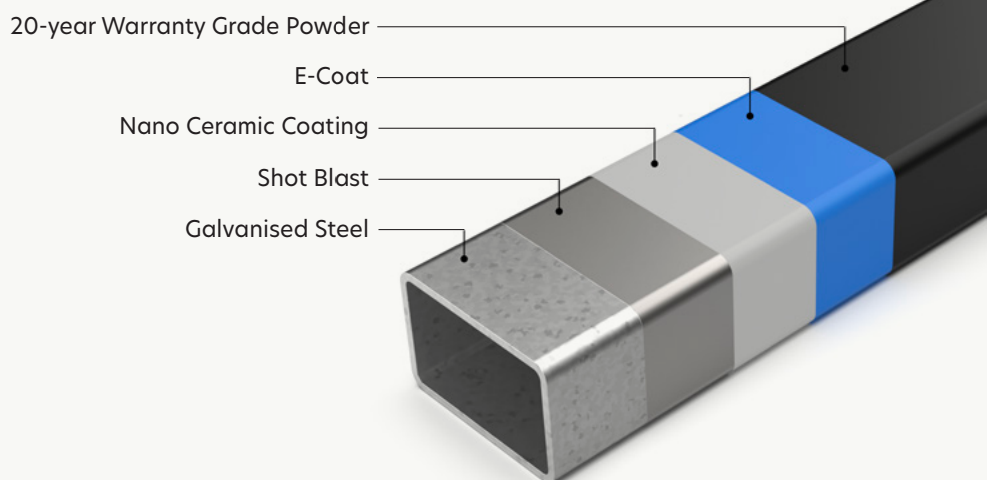

At Doogood Australia we design and manufacture products that last. We're committed to using materials & components of the highest quality to ensure the maximum performance and longevity of our fencing products. Our fencing solutions are designed, engineered and manufactured to the highest standards. The confidence we have in the quality of our products are reflected in a warranty period that exceeds the industry standard (generally 5-years).

Doogood provide a 10-year standard warranty on all fencing panels. A 20-year warranty is available by request and at an additional cost. **Please refer to our maintenance & warranty schedule and the Panel Warranty on page 11 of this brochure.**

Doogood Standard 10-year Warranty

Doogood Standard 20-year Warranty (optional)

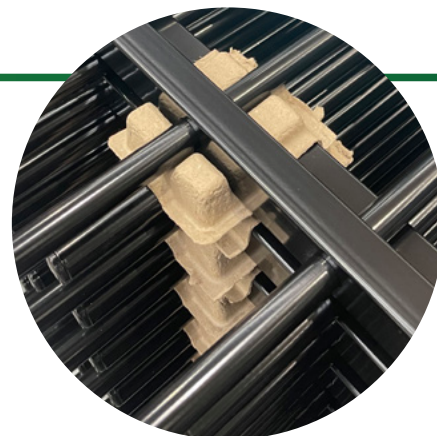

Panels Range

FEATURES

- Doogood stock large quantities of fencing panels at our Melbourne warehouse. Pick up or delivery to anywhere in Australia
- Can be powder coated in a large range of Dulux & Interpon colours

RESIDENTIAL RANGE

Doogood have been manufacturing high-quality, weather-resistant steel fencing designed for Australian homes for over 15 years. Our residential steel fencing range is available in distinctive, low-maintenance designs to complement any property.

Blade

Sleek and modern looking design will be sure to turn heads.

Robust Blade

Our blade panel with a stronger weld.

Heritage Picket

Traditional look picket fence that will outlast its timber rival.

Angle Panel

A unique panel for a fresh and modern look.

Angled Blade

A modern blade panel with a unique angle for added privacy.

Flat Top

Classic style fence panel that can be used in a variety of applications.

Rod Top

A versatile fence panel that can be used in a variety of applications.

Loop Top

The classic looking panel that fits any environment.

Ring Top

A more executive look at an affordable price.

COMMERICAL RANGE

Doogood provides tailored commercial fencing solutions for a variety of industries, including factories, schools, healthcare, public buildings, large-scale distribution centres, and industrial hubs. Our low-maintenance steel fencing offers the ultimate in security, style and durability and will complement your building without compromising views.

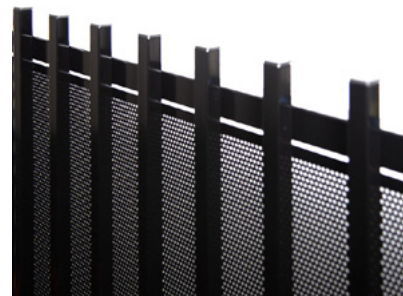

Industrial Spear Top

Sharp spears on top provide a deterrent to unauthorised access.

Industrial Square Top

A minimalist style with a seamless looking finish.

VSBA

Built to comply with the Victorian School Building Authority specifications.

DET Spec Panel

Built to comply with Department of Education specifications in NSW and Qld.

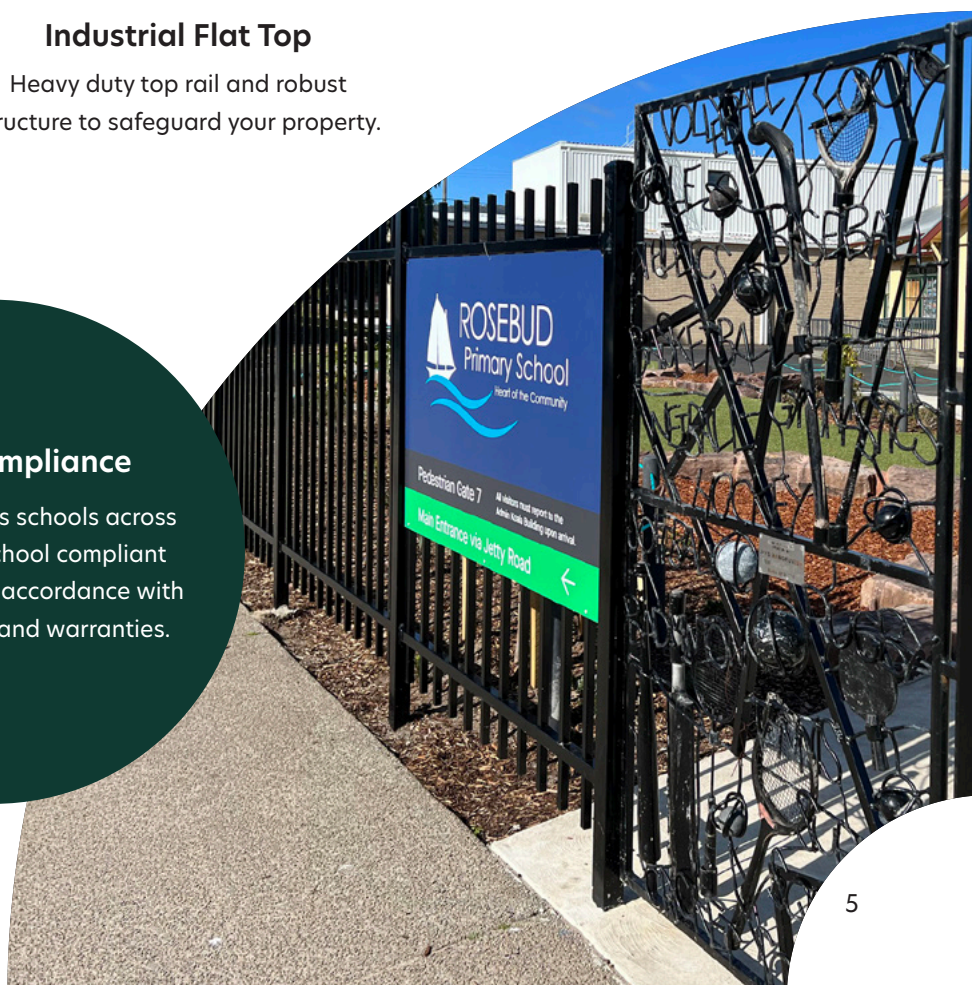

Industrial Flat Top

Heavy duty top rail and robust structure to safeguard your property.

School Compliance

Doogood supplies schools across Australia with school compliant fencing panels, in accordance with state standards and warranties.

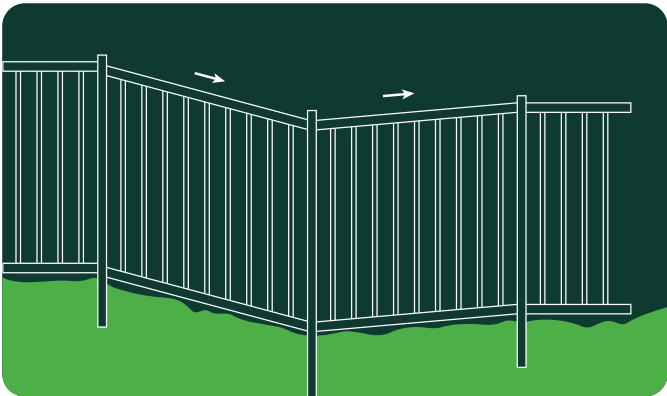

RAKED FENCING RANGE

Fencing on a slope? Doogood's patented, state-of-the-art raked steel fencing system, is designed for uneven ground and staircases as it flows with the lay of the land.

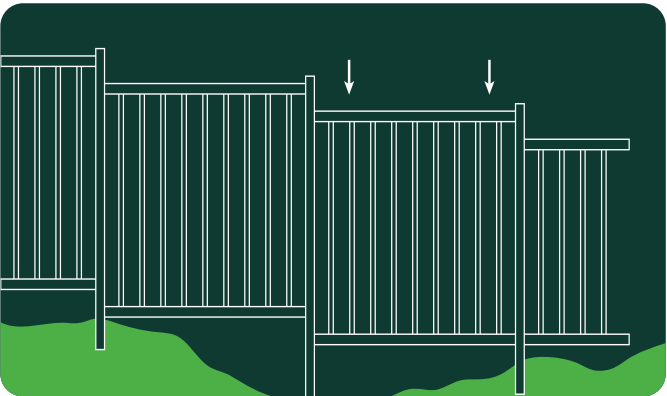

Using raked fence panels eliminates the need to stair-step sections, which is an issue typically seen when using fixed welded fence panels on a slope. Stepped panels not only look awkward and unsightly but they can often leave sizable gaps underneath the sections which undermine the purpose of a fence to act as an impassable barrier.

The innovative and stylish design of Doogood's raked blade and industrial spear panels allows for the easy construction of a continuous and sleek fence line.

Raked Fence for Slopes

Stair Stepped Sections

Industrial Square Top Raked

A minimalist style with a seamless looking finish.

Blade Raked

Raked panel for fencing industrial properties with uneven ground.

Industrial Spear Top Raked

Sharp spears on top provide a deterrent to unauthorised access.

Fortress by Doogood

Rakeable to suit grade changes common around pools and aquatic centres.

CUSTOM MADE PANELS

Need a unique fence design or something more complex? Doogood also manufacture quality-assured custom fencing panels and gates. Our in-house capabilities are extensive, with the ability to cut, bend, fold, weld and powder coat all substrates.

Our high-tech steel fabrication plant enables us to produce a high volume and comprehensive range of prefabricated and custom steel fencing panels and supplies. Our qualified team provides a comprehensive end-to-end service including CAD drawings and colour selection through to Australia-wide delivery.

Because we offer end-to-end processing in-house you can rest assured that your fencing materials and coated finishings are of the highest quality and meet the rigorous Australian Standards for fencing.

Coating Services

Doogood also provide metal coating services to commercial and residential fencing customers. We specialise in hard-wearing surface finishing for large and complex industrial and architectural components, sliding gates and metal fencing.

Our facility is also home to a purpose-built steel fencing powder coating line. We are equipped to service large items with dimensions up to 15m x 3m x 3m.

We use premium quality Dulux and Interpon powders available in hundreds of colours and shades giving us the ability to colour match existing components or colour themes to suit all customer needs.

No job is too big or small and with fast turnaround times and delivery to anywhere in Australia we've got you covered.

WE SUPPORT AUSTRALIAN MADE

Doogood is proud to be a supporter of the Australian Made campaign, and we do our part by providing a range of 100% Australian-made panels for residential, commercial, civil and rural fencing, manufactured right here in Melbourne.

We manufacture our 100% Australian-made steel fence panels and posts from quality standard AS1450 Australian-made steel and offer extended warranty options on our products. Choose from 46 fencing styles that can be Australian-made and produced daily across our residential, commercial, high-security and industrial fence panel ranges.

We use premium quality Dulux and Interpon products available in thousands of colours and shades to exactly match existing components or colour themes our customers require.

FENCING POSTS

Doogood stock on-hand a comprehensive range of galvanised steel fencing posts. Unlike other suppliers who sell them separately, Doogood fits a post cap on top of each galvanised fence post as standard, to minimise the risk of injury. We also have an innovative below-ground anti-twist technology system that locks the posts in place, making it four times sturdier than regular posts.

All fencing posts are available in a galvanised finish or can be coated in-house with premium powder coating, available in the Interpon or Dulux colour ranges.
